Investment policy

The Fund invests in various types of assets on various markets, primarily in money market instruments, bonds or similar securities (Government or corporate bonds, and/or other securities accepted for trading on a regulated market or another market approved by the Czech National Bank) and their derivatives (40 – 100 % of the Fund assets), in equity and commodities and other instruments bearing equity, or commodities risk and their derivatives (0 – 60 % of the Fund assets) and foreign currencies. Other funds' units may form up to 100 % of the Fund assets. Decisions on the Fund investments are regulated by the internal quantitative model. The Fund may not be suitable for investors who intend to recover their invested funds within a term shorter than 5 years.
